CAREER OBJECTIVE

Third-year Electrical and Electronic Engineering student with hands-on experience in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MySQL, including API integration. Seeking a software development internship to apply technical skills, contribute to real-world projects, and gain industry experience.

EDUCATION

Prasad V. Potluri Siddhartha Institute of Technology

B.Tech - Electrical and Electronics Engineering - CGPA - 7.85

2023 - Present

Vijayawada, A.P, India

Heal School

2021 - 2023

+2 - MPC - CGPA - 7.74

Vijayawada, A.P, India

Heal School

2020 - 2021

Central Board of Secondary Education - CGPA - 7.11

Vijayawada, A.P, India

INTERNSHIP

Embrizon Technologies - Web Development Intern

06/2025 - 08/2025

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js, ensuring a user-friendly experience across devices.
- Collaborated on an e-commerce front-end module, integrating APIs and managing application state effectively.
- Enhanced UI/UX and improved performance by debugging issues and optimizing React components.

Averixis Solutions - Frontend Web Development Intern

04/2025 - 07/2025

- Designed and developed responsive web pages using HTML, CSS, JavaScript, and React.js.
- Improved website performance, responsiveness, and overall user experience through optimization techniques.

Teachnook - Frontend Web Development Intern

05/2024 - 06/2024

- Developed and optimized front-end components using HTML, CSS, JavaScript, and React.js.
- Gained hands-on experience in building and improving eCommerce website interfaces.

PROJECTS

Campus Energy Monitor System

HTML, CSS, JavaScript, Nodejs, MySQL, Xampp server, Raspberry pi

- Developed a system to monitor and analyze campus energy consumption in real time using a digital energy meter.
- Collected and stored power usage data for analysis and visualized it through interactive dashboards.
- Helped identify areas of excessive power usage, promoting efficient and sustainable energy management.

Contact Manager Application

HTML, CSS, JavaScript, ReactJS

- Developed a responsive CRUD application to manage contacts, built with React.js and modern JavaScript (ES6+).
- Managed component and application state effectively using the useState hook, ensuring a single source of truth for all contact data.
- Created a seamless user experience with controlled forms for data entry and instant UI updates upon adding or deleting contacts.

Interactive Card Component

HTML, CSS, JavaScript, ReactJS

- Developed a card component with dynamic title, like/unlike label and a like button.
- Used React props to pass different titles from the App.js file into individual card components.
- Implemented state management using useState Hook to toggle between "Liked" and "Not Liked".

TECHNICAL SKILLS

Languages: C, Python

Technologies/Frameworks: HTML, CSS, Bootstrap, JavaScript, ReactJS, NodeJS, ExpressJS

Developer Tools: MATLAB, VS Code, Jupyter Notebook

Database: MYSQL

Embedded Systems Skills: Arduino, Raspberry pi

Core Subjects: Electrical Circuits, Power System

CERTIFICATIONS

- Certificate of Participation, Idea Hackathon on Full Stack Web Development - PVPSIT
- Python OOPs - Complete course in Object-Oriented Programming - Udemy
- Python programming - Udemy
- Web Development - Teachnook Cognizance'24 IIT Roorkee
